- Leadership Key Points from Core Principles
- Beliefs and Significance of Culture & Performance
- Supporting and Reinforcing the Beliefs within the Workforce
- The Leader’s role in supporting the ‘Key Messages’ for Behavioural Change
- How to use tools from psychology and sociology to Engage Teams

**Target Audience:** Leaders and the Management Team  
**Maximum Audience Size:** 30 Delegates  
**Session Duration:** 5- hours

### Typical Timings

Session Start: 09:30 – 10:30  
Refreshment Break: 10:30 – 10:45  
Session continuation: 10:45 – 12:00  
Lunch Break: 12:00 – 13:00  
Session completion: 13:00 – 14:30

*Timings are flexible and can be aligned with your agenda*

The course breaks down the psychology behind human behaviours, explaining the science affecting beliefs, conformity and calibration, communication and motivation. Leaders and decision makers will gain valuable knowledge on how to support an effective culture-change campaign to develop a proactive rather than reactive workplace safety culture.
